

# Rhode Island NOVELTY

## Redemption Rundown: Redemption Training Series

### Episode 12 – Imprinting Your Brand

Imprint items stand out as some of the best, easiest, and most cost-effective marketing strategies for your business. Your customers can carry items featuring your custom logo or catchy phrase everywhere they go. Join Sean and Kassidy as they share valuable imprinting tips in today's episode of Redemption Rundown.

These versatile imprint items can go in your redemption centers, cranes, food and drink sections. Explore some of our most popular imprinting items, including giant pint glasses, coil springs, bubble gum machines, moon blasters, knobby balls, vinyl balls, and more.

At Rhode Island Novelty, we handle all imprinting in-house. Simply send us your logo, and we'll place it on a template. Once you approve the design, our warehouse team brings your product to life, and is then shipped to you. The entire process typically takes 2-3 weeks, and sometimes even faster.

We recommend ordering imprint items separately from regular orders due to varying turnaround times.

Discover a large catalog of great imprinting items in various colors, styles, and more. Can't find what you're looking for or need advice on which imprinting items your redemption center should stock up on? Reach out to your sales rep today.

We hope you enjoyed today's episode and that you take advantage of easy, effortless marketing with imprinted items and prizes. See you in the next episode!
